

Parent Newsletter November 2017

Reflecting on the 2017 school year

A busy, successful school year is drawing to a close. More than 60 new students joined the 38 ENIS "pioneers", along with new teaching and non-teaching staff. Led by the founding Head Mr Keith Allen, the school set sails for its second year which saw (apart from the significant growth) hugely improved IGSCE results, a popular trip to Cape Town and many other events. A variety of initiatives launched this year will help the school be ready for future developments and growth, all of which aim at preparing students in the best possible way for their future lives through providing an excellent, international education.

Calendar 2018

The calendar 2018 was shared with parents back in August. Together with this newsletter we are distributing a calendar with main dates, such as for mid-year exams, reports, end-of-year exams and various events.

Foundation 1 field trip

Foundation 1 students went on a field trip to the Matola Raid Memorial Monument on November 22nd. Please see below for the full report.

Refletindo sobre o ano letivo de 2017

Um ano lectivo preenchido e bem-sucedido está chegando ao fim. Mais de 60 novos alunos juntaram-se aos 38 "pioneiros" da ENIS, em paralelo com novos professores e funcionários não docentes. Dirigida pelo director fundador Keith Allen, a escola iniciou o seu segundo ano, que acompanhou, para além do crescimento significativo, os resultados do IGSCE amplamente melhorados, uma viagem popular para a Cidade do Cabo e muitos outros eventos.

Uma variedade de iniciativas lançadas este ano ajudará a escola a se prontificar para futuros desenvolvimentos e crescimento, que visam preparar os alunos, da melhor forma possível, para o seu futuro, proporcionando uma educação internacional de excelência.

Calendário 2018

O calendário de 2018 foi partilhado com os pais em agosto. Juntamente com este boletim informativo, estamos a distribuir um calendário com datas principais, tais como datas para: os exames (do meio e do final do ano), relatórios, e vários eventos.

Group 4 Project for IBDP students

Our IB Diploma students completed the compulsory Group 4 Project on Wednesday and Thursday November 22nd and 23rd. The Project involves collaboration between the different Science subjects and gives students the unique opportunity to work together in inter-disciplinary groups as they design and carry out practical investigation centred around a common theme. This year's theme of the Group 4 Project was "Science in the Kitchen". Our students enjoyed the practical investigations and worked extremely well. Now students need to follow up this and write brief reflections and a detailed report.

Sports Days

We had our first ever Sports Days during the last week of term. Students contributed fabulously to the various soccer, volleyball and basketball matches. Please see below for results. Fantastic team work!

Projeto do Grupo 4 para estudantes do IBDP

Os nossos alunos do *IB Diploma* terminaram o projecto obrigatório do Grupo 4 na Quarta e na Quinta-feira, 22 e 23 de Novembro, respectivamente. O Projecto requere a colaboração entre as diferentes áreas disciplinares de Ciências, oferecendo aos alunos a oportunidade única de trabalharem em grupos interdisciplinares, na medida que projectam e realizam pesquisas práticas centradas em torno de um tema comum. Para este ano, o tema do Projecto do Grupo 4 foi "Science in the Kitchen". Os nossos alunos gostaram das investigações práticas e trabalharam extremamente bem. Agora os alunos precisam de dar continuidade, escrevendo breves reflexões e um relatório detalhado.

Foundation 1 field trip report

On November 23, 2017 Foundation 1A & 1B visited the Matola Raid Memorial Monument and the Interpretative centre. The primary interest of this visit was to learn more about the history of Apartheid and understand how far the Southern African countries, particularly Mozambique, were affected by the Apartheid regime of South Africa.

The idea of putting down books and pens and go to a new location with interesting things to see and experience was widely welcomed by students, so they were eager to get to the monument.

It was a worthwhile learning opportunity as students got engaged with the historic site, memorial and work of arts in person on the local what constituted a supplement to their school learning through an interesting real life experience. Furthermore, they made alive their lesson on Apartheid as they saw, touched and heard about the objects on the local. Students were so fascinated by the local and seemed to have had a great experience. According to some reports I received from them, they found the visit remarkably resourceful because the monument and the interpretative centre assembles all the Southern African history from the twentieth century until now.
