

CURRICULUM

International Baccalaureate Diploma Programme

In 2017, Enko Bonanjo International School will offer the International Baccalaureate Diploma Programme (IBDP). Students entering at the level of Form 5 will be registered in a Foundation Year leading up to the IBDP. The International baccalaureate Diploma Programme is for students aged 16-19 and the student can enter directly into the DP from IGCSE or any other equivalent qualification.

Parents considering the FY and IBDP have the following advantages:

- Students entering the Foundation Year leading up to the DP have the opportunity to upgrade and refine their knowledge, skills and abilities prior to engaging the rigorous DP;
- The DP aims to develop students who have excellent breadth and depth of knowledge-students will flourish physically, intellectually, emotionally and ethically
- DP is an excellent pre-university preparation. The core of the programme consists of Theory of Knowledge, the extended essay and Creativity, Activity and Service. The core encourages students to reflect on the nature of knowledge, complete independent research and undertake a project that often involves community service.
- Unlike other programmes, students in the DP are required to take a course selection within the six subjects groups: Studies in language and literature, language acquisition, individuals and societies, sciences, mathematics and the arts.
- The DP assesses student work as direct evidence of achievement against the stated goals of the programme courses.

Entry Level	Programme
